

# Wholesale solar panel kits

Planning to go solar with a 8-9KW grid tied system. Got quotes from a few companies in my area, one of which was Solar Wholesale, which is a DIY kit. The price difference was pretty small, less than \$1500 for the same size system between Solar Wholesale and a local company which does the install and everything, so it doesn't make sense to DIY.

Here are some factors to remember while shopping for individual solar panels or solar panel kits online. Wholesale resellers often sell in bulk. First, many resellers offering wholesale panels only sell them in large quantities. This may work for a solar installation company with many residential or commercial installations lined up, but if you ...

In 2024 when electricity rates are reaching record highs across the US, while frequent power outages remain a tale-old problem, the best overall solar kit for the average American home would have an IQ Battery 5P by Enphase.
