

Xcel energy solar

What happens if I subscribe to Xcel Energy?

Once subscribed, customers will begin receiving credits on their monthly utility bill for the solar energy that their subscription contributes to the Xcel Energy grid. Curious about how this fits into your sustainability goals?

Do Xcel Energy customers qualify for net metering benefits?

In addition to receiving Net Metering benefits, customers who qualify under the terms of Income Qualified or Disproportionately Impacted Communities can receive an upfront rebate of \$1 per watt of installed solar up to 10kW AC. Must be an Xcel Energy residential or business electricity customer.

Can Xcel Energy generate my own electricity?

Generate your own electricity and get credit for producing more than your monthly usage. Important Note: Xcel Energy highly recommends that construction of your system SHOULD NOT commence until your application receives full approval from the Xcel Energy engineering team and all final agreements are fully signed.

How do I qualify for Xcel Energy in Minnesota?

Be an electric residential or business customer of Xcel Energy in Minnesota. Have not received an incentive under the Solar* Rewards program for another PV system installed at the service address. Ensure that the same PV project is also not a participant in the Made in Minnesota incentive program coordinated by the Minnesota Department of Commerce.

Which Xcel Energy audits qualify?

Other Xcel Energy fee based energy audits also qualify. Sign a 10-year Solar* Rewards contract. Install a system that produces between 0.5 and 20.00kW. Systems of 20.01kW do not qualify. Install a PV system that produces less than 120 percent of the customer's annual energy use, based on the past 12 months of energy use.

How do I get credited for excess solar energy?

Go solar and get credited for any excess energy you produce with this incentivized program. Participate in renewable offerings without installing solar panels on your residence or business. See how you can add excess energy to the grid for future use when you produce your own solar energy.

We support your interest in solar energy, which is why we offer several programs to meet your needs and interests. We're here to help guide you through your options and answer your questions along the way, so that you can make an informed decision.
